### The Perfect Slice

#### Slice Pizza

It takes real guts to claim perfection in New York. Just so happens, our idea of "perfect" is delicious pizza that makes you look and feel better. And Slice: The Perfect Food is just that. The simple menu substitutes processed bad-for-you ingredients with spelt and whole-wheat crusts, organic veggies, and free-range, antibiotic-free meats – without compromising taste. Programs like "Pay It Forward With Slice" provide less fortunate schools with free pizza parties for every new school or coporate order the shop receives. Not heading uptown anytime soon? Look for their [Build-Your-Own](#) pizza kits at supermarkets around the city. There is something about that extra greasy, yellowy-orange slice that will always hold a place in our hearts. But when it comes to healthy happy hearts, Slice is the better slice.
